Instructional Plan

Delivery Formats

- Pre-K-5th Grade: Instruction for these grade levels will primarily be paper based, with a few exceptions. Packets started to go home this week, and will continue to go home as they become available.
- 6-12th grade: Instruction for these grade levels will contain a combination of paper based and computer based instruction. Our teachers are taking into consideration the individual needs of our students and what technology is available for each student.

Special Education Services

- Instructional accommodations and modifications will be made to the best of our current ability. Teachers will leverage technology resources that are adaptable to individual student needs.

Guidance, Mental Health, and Other Services

- Check-ins for the most at-risk students of the assigned school counselors, school psychologists, etc. will occur at least every other day or on a schedule determined by the Building Principal.

All instructional work completed during this closure is expected to be returned upon the students return to school (unless specified by teacher for electronic submission).

Plan for Feeding Students' (Pre-K – 12) Daily Breakfast and Lunch – Start date Tuesday, March 17, 2020

Our CEEP cafeteria program allows all of our students to eat for free. We will be delivering meals to all of our students beginning today, March 17, 2020. Our plan is to begin these runs at 9:30am

Accessibility to Building

Parents needing access to the building to retrieve student's instructional materials or personal materials should contact the main office. All needed materials must be picked up before Friday, March 20th.

Purpose of the Closure

As a reminder, the purpose of the school districts across the state closing was as a preventative measure. In order for this to have the intended impact, you must also take the appropriate measures. Practice social distancing, maintain appropriate hygiene, and do not congregate in groups.
